PROFILE

Java Developer with 8+ years of experience in enterprise application development across finance, product engineering, and analytics domains. Skilled in Java, Spring Boot, REST APIs, Oracle databases, SQL optimization, and JasperReports. Experienced in delivering scalable backend solutions, collaborating in agile teams, and contributing to system design and code quality at a senior level.

WORK EXPERIENCE

Infocepts

2023-2025

Senior Software Engineer

- Worked on development of data-driven enterprise applications supporting analytics and business intelligence use cases.
- Designed and implemented application modules using Java and Spring Boot for analytics platforms.
- Collaborated closely with data engineering and analytics teams to integrate application services with data pipelines.
- Implemented REST-based services to enable data access, transformation, and reporting workflows.
- Optimized application performance and improved system reliability for high-volume data processing.
- Guided junior engineers and ensured adherence to coding standards and best practices.
- Participated in technical design discussions, sprint planning, and release activities.

Persistent Systems

2020-2023

Software Engineer

- Designed and developed enterprise-scale applications following product engineering and agile methodologies.
- Took ownership of end-to-end feature development, from requirement analysis to deployment.
- Developed backend services using Java and Spring Boot, exposing secure and scalable RESTful APIs.
- Worked on frontend components using JSP, HTML, CSS, and JavaScript.
- Integrated applications with Oracle and relational databases, using optimized SQL and native queries.
- Performed code reviews, bug fixes, and performance improvements.
- Actively participated in sprint planning, retrospectives, and technical discussions.

EbixCash Technologies

2018-2020

Full Stack Developer

- Worked on development and maintenance of banking and financial applications for clients such as VWFS and Aditya Birla Finance Ltd.
- Assisted in building backend modules using Java and JSP under senior developer guidance.
- Implemented basic REST APIs using Spring Boot and supported API testing using Postman.
- Wrote and optimized SQL queries and database objects in Oracle 11g.
- Developed financial and operational reports using JasperReports.
- Created unit test cases and supported application-level testing.
- Prepared and maintained SRS and test case documents.
- Participated in daily scrum meetings, sprint reviews, and client demos.

EDUCATION

Bachelors of Technology

2014-2018

Priyadarshini College of Engineering, Nagpur
